**Once just a gentle flame but now a roaring fire**

**Once just a stirring deep but now a strong desire**

**Once just another name but now the sweetest sound**

**Once just a friend I knew but now the One I've found**

**Once just a lovely tune but now a melody**

**Once just a pleasing theme but now a symphony**

**Once just a sweet desire but now a single aim**

**Once just a pretty light but now a scorching flame**

**Once just beyond my reach but now within my heart**

**Once just a passing thought but now we'll never part**

**Once just a step away but now the central theme**

**Once just a wistful hope but now my life and dream**
